**ENIGMA BOOK SERIES AUTHORS, ROX BURKEY AND CHARLES
BREAKFIELD, RELEASE *THE ENIGMA RISING-2ND EDITION***

Authors, Rox Burkey and Charles Breakfield, who have been recognized multiple times for their Enigma Book Series with awards, is releasing *THE ENIGMA RISING-2ND Edition*.

The Enigma Rising is Book Two in the series is a modern-day techno thriller that explores a world of cyber-crime, satellite communications, missing heiress, and drug cartels.

In a Kirkus Review on *The Enigma Rising*, The story boasts strong characters: R-Group hacker Quip and JAC (both of whom are more pivotal to the narrative this time around) and Carlos, whose business ventures pit him in the role of villain but whose later choices—he considers giving up everything for Simone—make him much more commendable.

“...If you like the original Mission Impossible series, Tom Clancy, a little James Bond and some sensual steam, you will fall in love with this series! The characters are fun, and even without the benefit of reading the *The Enigma Factor* (#1 in the series), I was able to pick up on the personalities of the characters, and their roles in and out of the R-Group.”

These talented storytellers select a relevant technology target for each story and introduce the villainous cyber characters battling against the clever cyber heroes. Includes history, technology, romance, intrigue, and humor set in today's contemporary timeframe, and reviewers are loving them.

The series, which create a range of stories that takes readers into the 21st century, has garnered numerous awards. The books have also been recognized by the Dan Poynter Global Awards, Texas Association of Authors, and Colorado Independent Publishers Association among other publications and organizations.

One winning book in the series, *The Enigma Stolen*, was awarded the Rone Award in the category, Best Audio Book-General for 2019 by *InD'Tale Magazine*.

The Enigma Source, the authors' 10th book received the Dan Poynter Global Legacy Award in four categories in August 2019.

Each of The Enigma Series includes current technology in action-packed storylines. All of the stories are standalone installments with different themes.

Their upcoming 12th book in the series is slated for release in January 2021.

ABOUT THE AUTHORS

Charles Breakfield--Charles holds a master's degree and works for a high-tech manufacturer as a solution architect, functioning in hybrid data/telecom environments. A long-time technology geek, Charles enjoys writing, studying World War II history, travel, and cultural exchanges. He's also a fan of wine-tastings, riding his Harley, and continues developing his woodworking skills. Now included in people on the move in Dallas Business Journal.

Rox Burkey--Rox has two passions – working with technology and writing. She enjoys working to drive optimized customer experiences with technology in her role with a high-tech manufacturer. Texas is home for her and her family. When time permits Rox likes gardening, hiking, sewing, refinishing antiques, exploring, wine-tasting, and traveling. She loves to listen to people which often results in odd treasures that come to life in her stories. Now included in people on the move in Dallas Business Journal.
